MEMORANDUM FOR: [REDACTED]

25X1A

Charlie:

1. Here is a list of the carpetbaggers planning to attend the 14-15 October Ops Training Conference:

25X1A

25X1A

2. I'll be staying over for a OTR Personnel Board meeting on Friday, and some others may have business with [REDACTED] officers which could keep them there through Friday.

25X1A

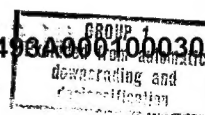

3. Both [REDACTED] will be running courses and won't be able to attend. Even so I think we should discuss the OIC and its possible future connection with the Risk of Capture program. Also we might cover the need for training in self-defense to complement your weapons training.

25X1A

4. [REDACTED] may be able by then to say something new about the old, old question of CI instruction.

SECRET

5. Whether Records training can eventually be incorporated into the BOC should be explored. I think, and Dale can cover briefly some changes that have been made in ST courses. Ken can outline recent developments in ALT programs (Cal will be on leave).

6. I believe you already plan a briefing on the AOC and BOC, and we might ask Bernie to brief us on the status of the Committee, the views of the DDP, etc.

7. I believe Rod would prefer to talk at the end of the session as part of a closing roundtable, but I'm really not sure. He might of course have to drop out at the last minute.

25X1A 8. If we get into a discussion of scheduling - springing the CS student at the right time to take the right training - we might want to invite either [REDACTED] because of the way the CT schedule influences other ones. What do you think? My own feeling is that we will never solve this until the PMC's in the area division start planning training for officers as they plan assignments, on an individual basis. And this leads to the problem that the PMC's generally don't know enough about training to make the decision. And here we go again! But anyway I guess it does have to be discussed, and by then Clark, Dale and Tex should have had a talk with Bernie per Rod's request.

25X1A 9. These are just some thoughts we can combine with yours and go over next Thursday and Friday when I come down. I hope we can tie it down the following week if you can get up here. Besides the conference I think it would be a good idea for you to hear from Rawleigh and Bill about the ROC planning. And [REDACTED] would like to see you on the CI thing. Also Pat has been asked by several people to let them know when you will be coming up.

John
